Please cease work on and funding for Project Jupiter! There is already enough damage to the climate as it is! Also, please give the public an additional 60 days to review the air quality permit and provide additional comments, so as to appropriately involve the community. The permit should be denied, but if not, please hold a public hearing in Santa Teresa, in both English AND Spanish, with the option to participate virtually. Please take this into consideration, and cease with Project Jupiter!
