

BRENDA Solis

This is a supplemental comment. In reviewing comments, I have discovered that these are all identical in language. This is a farce. 1571 comments. Each one I reviewed (maybe 15 i looked at) had IDENTICAL language. These are paid commenters...by project Jupiter. This makes this process very suspect and untrustworthy. Each commenter should be contacted to verify their comment, ask where they got the language. This is sneaky and inappropriate on behalf of Yucca and Project Jupiter.

Who is going to stand up and make this right??? The lies in this advertisement, in the comments are u believable. There will not be that many jobs. There will be only a handful permanent employees. They will destroy our community piece by piece. As someone else stated in a recent conversation... they know they are building a mess in these small communities. Why do they pick small communities? Why don't they build in the cities where they live? Put them by the 1%! Don't allow them here.

I am absolutely asking that this board do a full and thorough review of public comments and that the identical comments be stricken from the record.

The language is this:

I am writing to express my support for Project Jupiter, which I believe offers significant benefits for our community.

Project Jupiter is poised to bring substantial economic growth to Doa Ana County. It is anticipated to create 4,000 construction jobs and 1,500 project-supported jobs. Furthermore, Project Jupiter has committed \$50 million to help repair, upgrade, and improve local water systems; \$360 million in direct support for schools, infrastructure, and local services; and \$6.9 million to fund workforce development initiatives along with supporting the Boys and Girls Club of Las Cruces, clean drinking water, the local community college, and habitat restoration.

I urge the New Mexico Environment Department to approve this important project.
