

Fidel Briones

"My wife and I are completely opposed to Project Jupiter. This gargantuan project will emit tremendous amounts of dangerous air pollution in our area which already suffers from bad air quality many days of the year.

This project was rushed through with very little public input. Many people living in the Sunland Park/Santa Teresa area did not have a chance to express their opinion before the project was begun. This was done intentionally so as to avoid any negative feedback from the public. We demand that the project be stopped from being built here. We thank you for your attention to this matter."
