

David Henner

I am writing to express my opposition to Project Jupiter, which I believe will result in significant harm to our community.

Project Jupiter is poised to bring substantial pollution to Doña Ana County. It is anticipated to consume large amounts of our water and contribute to the poisoning of our air. Furthermore, Project Jupiter has committed millions of dollars to misleading local residents into supporting its plan without honestly presenting it in public forums. It is nice of them to offer bribes of \$360 million in direct support for schools, infrastructure, and local services; and \$6.9 million to fund workforce development initiatives along with supporting the Boys and Girls Club of Las Cruces, clean drinking water, the local community college, and habitat restoration, but all of this needs to be weighed against the likely deleterious impact on our environment and our community.

I urge the New Mexico Environment Department to reject this dangerous project.

Sincerely,
David Henner

There, I fixed it.
