

Gabrielle Villavicencio

Dear NMED staff,

My name is Gabrielle Villavicencio. I am a New Mexico resident, living in Albuquerque, and I am writing because I am concerned about the risks and harms Project Jupiter poses to New Mexicans. I am submitting this comment to urge the New Mexico Environment Department to reject Yucca Growth Infrastructure, LLC's air permit application for the YGI Microgrid in Doña Ana County. NMED's mission is "to protect and restore the environment and to foster a healthy and prosperous New Mexico for present and future generations." Granting these permit applications is a direct contradiction to that mission. Project Jupiter will put our air quality and water supply at risk and put a strain on our energy grid. Reject these permits!
