

Brittany Fuentes-Nunez

This should stop because millions of people have family they care about and others have a future but AI is ruining that for others for example being an artist, actor, writer, singer, and way more that AI is ruining, i am still a student and minor but I do hope AI can stop because it is affecting our lives, people have an addiction to it or is just wasting water that people use to survive, and why use AI if we were managing perfectly fine without AI look at history it did good without AI we were good without AI as well. There's also many health risks this project Jupiter could cause us, and makes people less creative and give wrong answers to students that cheat using AI.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
