

Mariela n/a

We need our resources. New Mexico doesn't have a lot of resources if we do continue with this project Jupiter we're gonna end up with less resources. We already are dealing with something like this in New Mexico and then to have a second one build next you're taking away a lot of of their resources that we all need El Paso, Texas, New Mexico it's not fair to us. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
