

Liv Rai

Project Jupiter will absolutely demolish our earth. Would you rather be alive and thriving or have ai and not be able to survive on our earth do the research the chemicals produced by all this is harming our planet. This project needs to stop before it's too late. We have been great without ai for millions of years. Stop being a coward and afraid of what might happen without it, because it's better than what we already know it's gonna be like with it. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably. The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
