

Jimena Carrillo

Dear NMED staff, My name is Jimena Carrillo. I am writing because I am concerned about the risks and harms Project Jupiter poses to New Mexicans. I am submitting this comment to urge the New Mexico Environment Department to reject Yucca Growth Infrastructure, LLC's air permit application for the YGI Microgrid in Doña Ana County. It would still produce a high level of greenhouse gas and toxic pollutants; it will also release toxic waste into the environment and it is unclear where the waste would go. So I'm assuming that it could potentially go into our water cycle. I urge the NMED to outright reject YUCCA Yucca Growth Infrastructure, LLC's air permit application for the YGI Microgrid. I ask the department to please hold a bilingual public hearing near the Santa Teresa community, so that residents can learn about the risks associated with fuel cell technology. Sincerely, Jimena Carrillo
