

Francis Dana

I do not support your project of poisoning the air that we all breathe out of. Your company does not need anymore money then it already has. I hope you know that poisoning the air can cause a lot of problems for people and some could possibly die and you would be the part of the problem. Stop whatever you're doing it is enough and the people are sick of the health risks you're causing for the rest of us.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
