

Terri Rauch

I don't want Project Jupiter to bring a methane fueled power plant to our county. I am concerned about Jupiter's lack of transparency, our air quality, our water and safety issues.

I am asking that the permit be denied.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
