

Neda Bražionytė

Artificial Intelligence is not necessary for our survival, WATER IS!!! I don't know how this is not obvious, data centres are already using ginormous amounts of drinkable water, we don't need another one which would use all of our water resources. These are one of the many reasons I am against this project.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
