

Mary Baker

I am writing to express my strong aversion to project jupiter. I DO NOT SUPPORT Project Jupiter, which I believe will significant damage water rights, and will not benefit our community as "projected" , will not benefit our landscape, or our people!

Project Jupiter is estimated to bring substantial economic growth to Dona Ana County, key word, estimated. But it really, we will be utilizing tons of water and damage our DELICATE eco system all for cooling some dumb computers. WE DON'T want AI in NM. Take it some place else!

WE DONT want its anticipated* 4,000 construction jobs and 1,500 project-supported jobs, we don't need your money!!! These are not guarantees, They are meant to entice your judgements.

Furthermore, Project Jupiter has committed \$50 million to help repair, upgrade, and improve local water systems, that it plans on using solely, and not benefiting anyone. The \$360 million in direct support for schools, infrastructure, and local services; and the bs \$6.9 million to fund workforce development initiatives along with supporting the Boys and Girls Club of Las Cruces, is just a ruse to look good on paper. We already have clean drinking water, and we DO NOT need Protect Jupiter at all.

I urge the New Mexico Environment Department to NOT approve this impor project. It would be a disservice to the entirety of NM and what our beautiful lands stand for.

I am fighting against this project and it's misleading information meant to "sell" us on an idea that will inevitably destroy NM land, take limited** water resources from our communities, and trade respect, environmental concerns, snd the right of the people, for what? The all might dollar? Money is never worth nature, it's not worth our water resources, it's the worst decision NM will ever make of you allow Project Jupiter to continue. I urge you to hear us, and to make the right decision, vote against Project Jupiter! For NM's future!

Sincerely,
Mary Elisabeth Baker
