

Caroline Toth

Please deny this permit. From the beginning, Project Jupiter has attempted to ignore the public's desperate cries for transparency, communication, and time. For this permit alone, the public should have had at least 60 days to review and comment. The public must be heard.

Project Jupiter is paying canvassers to submit comments in their favor to try and warp the perception of public sentiment. In reality, the vast majority of people I have spoken to are AGAINST this movement.

We need to keep New Mexico a safe place to live, and that is fundamentally incompatible with Project Jupiter's strategy of manipulating the public into sacrificing their natural resources for the profit of the ruling class.

The residents of Doña Ana county have made it abundantly clear that we will not be misled, and we will not cede these precious resources. As we all knew from the start, Project Jupiter is not interested in the health or cooperation of the community. Please do your part in protecting our home by denying this permit and providing 60 days for public review and comment.

Thank you.
