

Lukne Dambrauskaite

Why are people so harsh on this world we live in? Why are they so obsessed with making money money and more and more. Soon there will be no more to make, no more water to drink, no more air to breathe, and that is because money is their priority. My language is not english and i don't live where the data center is being built, but that shows that people care about the world. So please don't destroy it.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
