

Paul LeFevre

Hello, I've just been informed of the lowering of emissions and safety standards for this building project, and am wholeheartedly against it. Please do not sell the health of our environment so billionaires can make a few more bucks, and line pockets of corrupt officials along the way. Please look out for the health and wellness of our citizens first, as that is your mandate, and do not allow this project to go through. It will harm New Mexico and harm it's citizens and it needs to be stopped. Thank you!
