

Gabriel Martin

My personal opinion as one of our nations citizens is that Project Jupiter should be stopped as this will lead to our entire planets' ecosystem to slowly collapse far faster than it already is, therefore creating mass extinction, climate change, breathing issues, etc. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
