

Zyana Benjamin

This "project" will ruin our water supply and our land. The environment around us cannot sustain this level of abuse on its resources. This is a danger to our communities in New Mexico. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably. If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually. More people need to speak up against project Jupiter. SAY NO TO PROJECT JUPITER.
