

Desiree Sams

I like many other people in the world hope to one day have a family. I don't want my future children to worry about having water and clean air. I also don't think it's fair that people are paying for these data centers when there are people making millions off dangerous data centers.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
