WE DO NOT NEED AI!!! WE DO NOT NEED DATA CENTERS. The people do not want this and to prioritize objects and technology over human lives simply because of GREED is wrong. If you can not find it in yourself to feel empathy and to put other peoples lives at the same importance at you own, EVEN IF YOU ARE IN POWER, then you should not have power. HUMAN DESERVE A HEALTHY EARTH. THE ANIMALS DESERVE A HEALTHY EARTH. WE CAN PUT HUMAN RESOURCES INTO SO MUCH GREATER TO MAKE LIFE ON EARTH SO MUCH MORE MEANINGFUL! WE CAN SAVE THE PLANET!!!! WE DO NOT NEED DATA CENTERS TO DO SO!!!!

Ai takes human jobs. Ai causes humans to suffer, pushing them out of their homes, polluting the air and water and causing the humans to therefore have less access to resources. Pushing away the animals. Causes unnatural environments. Humans are a nuisance to the earth. No one needs data centers. This is based in greed.
