

Yuliya Pieczara

My name is Yuliya, I live across the globe from this project, and even I can see that this will cause severe and unnecessary harm to the environment. The ONLY benefit I could find for everyone who isn't rich and involved? The jobs YOUR project promised us. And funnily enough, majority of those are temporary construction jobs. You can't just go through with a project this big and damaging, just because it provides billions for those who are billionaires. The damage is PERMANENT !! If you go through with this, you will be crushing the earth under the weight of YOUR carbon footprint, that YOU added. Do not erase the damage you'll do, don't sugar coat it for yourself. So, what do I ask of you? Don't go through with project jupiter. Don't contribute to tons of pollution, and don't be an environmental racist. Stop targeting vulnerable communities, and forcing locals to just accept the fate you want them to- give the public an additional 60 days to review and comment on the air quality permit. The air quality permit SHOULD NOT BE APPROVED. If it IS approved, let people speak up about how they feel. A public hearing needs to be held in Santa Teresa, in BOTH English and Spanish. Ways to participate virtually should exist too. Don't spring it up suddenly- let people choose. Don't be greedy.
