

Angie Laurenn

We Don't need Ai to be intelligent, Ai should not be on internet in the first place, it's actually Destroying the system and draining our water, please stop this project it's not useful. Think about the children, this project gives them brain fog and asthma. This causes extreme hot waves in the world and it's dangerous just this can cause terrible diseases and it could kill so much animals, plants, trees even forests. Please wake up, we look like slaves.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
