

Taisiia Kozlova

My name is Taisiia Kozlova and I'm live in Canada, even if project Jupiter isn't on this land, it's going to cause a disaster to a people in New Mexico. This project going to take their land, land of people, animals, nature. And just for making Ai data centre? Our planet, our environment, our people means more than robots and Ai. If we not doing to protect what we have now, we are going to lose everything we ever had.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
