

Rufina Isackson

Completing and approving this project under the guise of good air quality would be government-sponsored environmental racism. The air quality permit application should be denied and a public hearing needs to be held in Santa Teresa. Projects that would impact a community for generations should always be presented to the people for comment and decision. Communities should not be sold out to the highest bidder or shareholder for monetary gains. Especially when those individuals do not reside or participate in said Community. STOP LETTING INDIVIDUALS WHO DON'T CARE FOR YOUR PEOPLE PAY YOU OUT AND WALK ALL OVER YOU!
