

Melissa Hawk

What kind of stupid attempts to put a data center that requires a massive amount of water to cool it in one of the driest places in the USA? There are PEOPLE who live here. AND wildlife that are dependent on a VASTLY SHRUNKEN water table? We dam the Rio Grande for most of the year and you want to siphon off more water? IMBECILES...IDIOTS. FATUOUS, FAT HEADED, OUT OF TOUCH fuckwits is who. pull your heads out your asses, and use the logic and critical thinking skills the gods gave a cockroach.
