

Heath Seward

Project Jupiter is funded by Oracle.

The owner of Oracle is Larry Ellison.

Larry Ellison is one of the biggest donors to the IOF. (Israeli occupation forces)

The IOF uses technology provided by Oracle to murder women and children.

Those moral reasons alone should be enough to stop this data center, which will surely be used to aid in the murder of women and children.

If morality is not good enough, the preservation of our land should be the next!

The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste.

If they have done it before they will not hesitate to do it again.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably. If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.

Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution. For years, Doña Ana County has been called a 'nonattainment' zone— this means our air quality does not meet federal government rules.

The list of reasons why this is a bad idea is infinite. Please do not let this happen to our already struggling community.
