

Gwen Feisst

Please remember your goals of protecting New Mexico and New Mexicans and the environment we live in. Please give enough time and possibility for people to learn about the project in their language and comment. Please deny the air quality permit. People in Dona Ana County are already suffering from bad air quality. Don't allow a company with a bad reputation to bring more damage to our state. Thank you for protecting New Mexico!!

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
