

Savanna Nguyen

Dear NMED staff,

My name is Savanna Nguyen. I live in North Carolina, and I am writing because I am concerned about the risks and harms Project Jupiter poses to New Mexicans. I am submitting this comment to urge the New Mexico Environment Department to reject Yucca Growth Infrastructure, LLC's air permit application for the YGI Microgrid in Doña Ana County.

I may not live in New Mexico to be affected by these policies, but I have friends that do and I care deeply about their wellbeing, along with their family as well. With Project Jupiter, there would not be any benefits for the wellbeing of those who live in affected areas, producing greenhouse gases, toxic waste with no proper methods on how to handle and dispose of it properly.

I urge the NMED to reject YUCCA Yucca Growth Infrastructure, LLC's air permit application for the YGI Microgrid. I ask the department to please hold a bilingual public hearing near the Santa Teresa community, so that residents can learn about the risks associated with fuel cell technology. Sincerely, Savanna Nguyen.
