

## Your Momma

I get it this is like a last resort for you fucking stupid nephalim. The only thing is, this will only give you a sense of glory. But when you fall your fall will be long dark and stressful. That is why we are not worried about what you try to bring about in our district. The fall will ultimately be yours. The abyss will be your domain for all eternity. So go ahead try your hardest. You better make sure it is all worth the pain your going to suffer for all evening.

Sincerely the chosen ones.
