

Judy Ruden

I am a resident of New Mexico and I am asking that you deny Yucca Growth Infrastructure's air quality permit. You are hurting people. This decision ensures that hurt will outlast you and your politics. Promises of jobs and blooming economies cannot compensate for this hurt. You need to be human and you need to recognize the humanity in the people you are hurting. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably. The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
