

To the Environmental Improvement Board:

I respectfully submit this comment in support of the air quality permit applications for Project Jupiter. New Mexico's future depends on attracting industries that create opportunity while strengthening our local economies. Projects like this encourage investment, support working families, and create ripple effects that benefit businesses throughout the region.

I appreciate the Board's thoughtful review and encourage approval of the requested permits.

Sincerely,

A handwritten signature in black ink, appearing to read 'Grecia'.
