

Annabel Martin

Hello, I am contacting you here today to ask for you not to accept and or continue on the development of project Jupiter or any other AI data centers. These New are number on not only the environment, but the quality of life of the people who surround these centers. They are loud they pollute the air, the water, they disrupt animals habitats. We have seen the effects of large scale data centers, and we the people of New Mexico do not want them!
