

Oliver earnest

I currently am a resident of a small village that is in the suburbs of Chicago, yet the amount of damage that project Jupiter could do will go just beyond locally and will affect people all around the world, worsening climate change issues and could kill off multiple ecosystems because of this.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
