I am not in support of project Jupiter, it is going to destroy ecosystems, take away resources we need, and it's going to contribute to the already large amount of pollution that we have. Project Jupiter is a problem and it is going to be the reason for mass destruction of ecosystems and communities around it. Project Jupiter needs to be cancelled

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
