I oppose Project Jupiter, if we all grew up without ai, we can continue living without ai. This project is doing many harms to both the locals and the environment, how is ai supposed to help us if they're already destroying our homes. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably. The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
