

Boston Barker

Reject everything to do with project Jupiter, don't let the company jargon distract from their true intentions, which is to squeeze everything dry so they have more money. They don't need it, but we need the water, energy, and unpoluted land. Project Jupiter's people should be ashamed of trying to do what they're doing, and for trying to sell it to us like we'll benefit. They're people of few scruples and as bad as the harm they want to do to everyone and everything for their own profit.

They are snakes in the grass and don't care about what comes about after they get what they want. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.

Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.
