

Xaina Lewallen

I am not exactly positive what to wright that would make u guys truly question what your doing but I can tell you right now even with grammatical errors we do not need AI we do not want AI and all the harm it is already bringing to our society there is a quote I have been seeing all over social media and I'm going to reiterate it to you all, "once the last tree is cut down, will we then realize we can't eat money" but I want to go a little further not only can't we eat money we can't drink money, we can't unconditionally love money, money isn't living, money doesn't have a soul.
