

Laura M

I live in New Mexico and oppose Project Jupiter. This AI project will not hesitate to use, pollute, and and destroy our limited resources for private profit with no lasting benefit to those of us who live here. Our resources are not replaceable. Your mission is to "protect and restore the environment and to foster a healthy and prosperous New Mexico for present and future generations." Not enrich private corporations at our expense. They know they're not wanted, you know they're not wanted. All permits should be denied.
