

Jude Clowater

This ai data center will kill ecosystems, make water unclean for human consumption to the communities surrounding the datacenters and kill hundreds if not thousands of animals. We do not need a datacenter the size of Manhattan, it is cruel and unnecessary. This is environmental racism. The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
