

Ketlin Veski

Enough with this nonsense. It is about time that the powerful who have twisted judgement drop their ego and start listening to us. This world is already corrupt and disgusting enough. You are killing the only planet that we all in unison can call home. I have heard enough teens of my and other generations say they do not want to have children because of how corrupt this world is. It would be selfish to bring souls into a planet that is actively suffering while its people are working against it.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
