

Collin McWhirter

Are you out of your mind?? No amount of "promised jobs" is worth sucking the very life blood out of New Mexico until no one lives here due the conditions you wrought. For the love of god and everything good in this world say no. We don't need data centers so kids can have more unhinged tik toks. We need better education, housing, and public medicine! The people have been saying this for decades. If you choose to ignore our pleas to line your own pockets, you are one of the lowest forms of trash that exists. I hope this message finds you in good faith and you make the moral decision.
