

Arlyn Roblero

I am a resident of New Mexico and I am asking that you deny Yucca Growth Infrastructure's air quality permit. I am still young but I do not want to see our safety taken away from us. Our future is under threat with this permit. I am young and don't know everything, but I do know I am not willing to risk my future for some project. We live in a desert and if you haven't noticed we already don't have water running in our river. By agreeing to this permit it will cause much more global heating. We have been at risk of unchangeable global warming. Our winter feel like summer and our summers just continue reaching extreme temperatures. It has also come to my attention that Oracle is paying content creators to promote this project. This is a huge lack of transparency. I plead that you deny this permit for the safety of our residents and the future which are being stripped away from younger generations like myself. If we want to become better our actions must speak the same.
