Project Jupiter will greatly impact our climate and use up water that is already limited in and of itself. We have no need for generative ai or use for it when it is already taking up jobs of artists/ creators!! Having a data center to this degree is absolutely mind boggling to say the least!! NO ONE NEEDS DATA CENTERS!! NO ONE NEEEEEDSS GENERATIVE AI!! It is not a necessity like food and water!! The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
