I am a citizen of Lithuania and I've always deeply cared about nature. I am signing this to try and limit CO2 emissions from data centers, factories and other industrial facilities to hopefully slow down global warming. I also want to try and help locals that suffer from high air pollution, lack of water, unnaturally high or low air temperatures.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
