

Clara Wright

This is genuinely the worst idea ever. This is the most disgusting project ever proposed. Rich people make me sick. This will destroy the climate, and ecosystem. When will people wake up to the destruction caused by people who don't give a crap.

New Mexico Environment Department should give the public an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
