

E B

I am a USA resident and I am writing because I am DISGUSTED to learn about Project Jupiter and the cataclysmic risks it poses to New Mexicans. I am submitting this comment to DEMAND the New Mexico Environment Department to reject Yucca Growth Infrastructure, LLC's air permit application for the YGI Microgrid in Doña Ana County. FUCK AI AND SURVEILLANCE STATES. FUCK BILLIONAIRES. THE PLANET BELONGS TO EVERYONE. FUCK YOU IF YOU PASS THIS SHIT The project's proposed fuel cell powered grid is concerning for many reasons: * It would still produce a high level of greenhouse gas and toxic pollutants * This technology generates toxic waste, and the process for handling this waste is still unclear. * Fuel cell technology or a centralized waste system has never occurred at this scale. * Surrounding communities' air will be negatively impacted by this development. * I DEMAND the NMED to outright reject YUCCA Yucca Growth Infrastructure, LLC's air permit application for the YGI Microgrid. I DEMAND the department to hold a bilingual public hearing near the Santa Teresa community, so that residents can learn about the TRUTH AND DEATH AND DESTRUCTION associated with fuel cell technology.
