

Spencer Taylor

Do not grant this permit. We don't want this in our state. We are in a state of climate emergency and we can't afford the massive amount of atmospheric pollutants this project will emit. It's obvious how opposed the whole state is, as demonstrated by the number of primary candidates who oppose this winning their elections. This project also brings us no benefits we are interested in, and in fact further develops several things we oppose. Don't sell our state out to corporate profit.
