

Jupiter Horo

We need clean water to live, its not optional and not easy to get. we won't realise what we have until it's gone. As someone who wants to grow up, and have children who don't have to grow up in fear and anxiousness over whether or not they'll have to sleep thirsty, hungry and sick I submit a comment to go against project jupiter. We only have one earth, we can't mess it up.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
