Hi, I'm a young teen, my opinion may be not too important to the cause, but I believe I should be heard, I don't want to live in a world full of pollution, no water, extreme heat and no turning back, just because some billionaires want more money, I want to live in a world I can actually survive, in a world I can drink fresh and clean water, in a world where animals aren't in danger, in a world where I can breathe fresh air. I do not care if I'm blunt or if I can't properly communicate my own thoughts, I want the Project Jupiter to stop at all cost and stop all projects that harm our dear planet earth, thank you for hearing me out and please acknowledge my comment.

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
