

Maggie June

I stand strongly AGAINST DATA CENTERS—including this one! NO to all data center proposals in New Mexico! We stand strongly for HEALTHY land & water; we insist on preserving New Mexico's natural resources; we stand to preserve our desert resources—so we will not allow companies to take our Water!

No to data centers.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.

Sincerely, Concerned New Mexicans
